

SunErgy's Official Inauguration of new Solar Power Plant – Power House with Batteries

SunErgy's offer to you

We have a long track record of building and operating Solar Energy Plants.

- Together with you we identify your Energy demand, develop the Solar Power Plant fitting your needs, determine a time plan, as well as appropriate Financing as you may require.
- SunErgy builds the Solar Power Plant on your premises and ensures that all equipment works correctly.
- After the installation of the Solar Power Plant, we do not abandon our Customers: we are able to provide operation and maintenance of the Solar Power Plant, again in cooperation with you and according to your specific needs.

SunErgy Cameroon
